in steinbeck s imaginarium robert demott delves into the imaginative creative and sometimes neglected aspects of john steinbeck s writing demott positions steinbeck as a prophetic voice for today as much as he was for the depression era 1930s as the essays explore the often unknown or unacknowledged elements of steinbeck s artistic career that deserve closer attention he writes about the determining scientific influences such as quantum physics and ecology in cannery row and considers steinbeck s addiction to writing through the lens of the extensive obsessive full length journals that he kept

while writing three of his best known novels *The Grapes of Wrath*, *The Wayward Bus*, and *East of Eden*, Demott insists that these monumental works of fiction all comprise important statements on his creative process and his theory of fiction writing. Demott further blends his personal experience as a lifelong angler with a reading of several neglected fishing episodes in Steinbeck's work. Collectively, the chapters illuminate John Steinbeck as a fully conscious, self-aware, literate experimental novelist whose talents will continue to warrant study and admiration for years to come.

This volume was born to address the lack of classroom-oriented scholarship regarding U.S. educated multilingual writers. Unlike prior volumes about U.S. educated multilinguals, this book focuses solely on pedagogy from classroom activities and writing assignments to course curricula and pedagogical support programs outside the immediate classroom. Unlike many pedagogical volumes that are written in the voice of an expert researcher-theorist, this volume is based on the notion of teachers sharing practices with teachers. All of the contributors are teachers who are writing about and reflecting on their own experiences and outcomes and interweaving those experiences and outcomes with current theory and research in the field. The volume thus portrays teachers as active, reflective participants engaged in critical inquiry. Contributors represent community college, college, and university contexts, academic ESL, developmental writing, and first-year composition classes and face-to-face, hybrid, and online contexts. This book was developed primarily to meet the needs of practicing writing teachers in college-level ESL, basic writing, and college composition classrooms but will also be useful to pre-service teachers in TESOL, composition, and education graduate programs.

Students in first-year composition courses across the country discuss and write about touchy subjects like race, class, gender, and religion. This book focuses on the latter, offering a pragmatic way of working with religious belief as a subject of study in the secular setting of the university classroom based on the work of American pragmatists like Charles Peirce, William

james and john dewey this approach considers what religious belief does in the world the tangible consequences of believing or not believing and steers away from questions concerning god s existence or benevolence religion is viewed as a social and political force affecting human interaction drawing on years of experience teaching composition in chile and the united states the author explores real world events such as chile s 1973 coup d etat the resignation of pope benedict xvi and the daily interplay of religious beliefs among family members reading and writing assignments geared for believers and nonbelievers alike are provided including student essays that make various arguments about religion
