das stuttgarter institut für energieeffizienz in der produktion eep hat die zweite auflage der metastudie energieeffizienz in deutschland erarbeitet sie liefert zahlen daten und fakten zum entwicklungs und kenntnisstand der energieeffizienz in deutschland die studie zeigt auf welchen beitrags einzelne energieeffizienzmaßnahmen bisher geleistet haben und welche einsparpotenziale zwar bekannt sind aber bisher noch nicht umgesetzt wurden neben der identifikation von neuen relevanten veröffentlichungen und aktualisierung der vorhandenen daten beschreibt die studie zusätzlich ansätze wie die energieeffizienzpotenziale umgesetzt werden können zudem wird in der zweiten auflage die wirtschaftlichkeit von einsparpotenzialen besonders adressiert insgesamt wurden für die zweite auflage mehr als 250 veröffentlichungen von forschungseinrichtungen ministerien fach und industrieverbänden mit themenschwerpunkt energieeffizienz identifiziert und ausgewertet

the black sea region rarely hit the media headlines until the outbreak of war in georgia in 2008 yet its importance as a focus of european union eu external policy making had already been growing for several years the area is fascinating and diverse comprising both large and small states with a mixture of democracies and more authoritarian regimes traditionally a central foreign policy concern for russia and turkey since the end of the cold war the eu and the us have become increasingly involved in the many dimensions of black sea politics this book brings together a broad range of specialists on the region to analyze the challenge of divergent agendas both within and outside the eu more specifically it looks at how the eu's enlargement to include states on the black sea shore has brought about new external policies including the european neighbourhood policy black sea synergy and the

eastern partnership all representing subtly different aims and interests the various sections in the book also examine regionalization conflict resolution security relationships between the black sea s states and last but not least the vital issue of energy which has begun to dominate the discussion of the region designed to further the debate on the future of eu policies for the black sea region this book is an essential resource for researchers students and others in search of a coherent picture of the inter relationship of eu initiatives and policies in the region

municipal solid waste energy conversion in emerging countries technologies best practices challenges and policy presents contributions from authors from india argentina brazil colombia ecuador mexico south africa and china who come together to present the most reliable technologies for the energy conversion of municipal solid waste the book addresses existing economic and policy scenarios and possible pathways to increase energy access and reduce the negative impacts of inadequate disposal the book s authors discuss anaerobic digestion and other msw conversion technologies such as incineration and gasification the environmental and social impacts of their introduction in small villages in emerging countries is also explored due to its focus on local authors and its pragmatic approach this book is indispensable for bioenergy researchers and practitioners in emerging economies as well as researchers graduate students and professionals interested in developing waste to energy technology that can be implemented in those regions it is also particularly useful to professionals interested in energy policy and economics due to its assessment of policy and recommendations explores the opportunities and challenges for municipal solid waste to energy technology implementation in emerging economies such as brazil india south africa and china presents a detailed and updated overview of the commercial technologies available in these countries and their economic environmental and social

aspects includes case studies which highlight best practices and successful local experiences examines current economics and policy barriers for these technologies
